Re: Utah Liquefaction Working Group

Dear ULAG member:

This is to inform you that the Utah Liquefaction Advisory Group will not be meeting during the 2017 earthquake working group meetings sponsored by the Utah Geological Survey, primarily due to Utah Geological Survey budget issues and the lack of U.S. Geological Survey cooperative funding for the Utah Earthquake Working Groups so far this year.

As always, if you are interested in attending the 2017 earthquake working group meetings as an observer, you are more than welcome to do so. The Quaternary Fault Parameters Working Group will meet on Feb. 8 (8:30 a.m. – 5:00 p.m.). The agenda is available at http://geology.utah.gov/docs/pdf/UQFPWG-2017_Agenda.pdf. Register for the working group meeting at <http://2017uewg.eventbrite.com/>.

Sincerely,

Jessica Castleton
Utah Geological Survey Liaison
