

Publications

- Allison, M.L., 1995, *Increased oil production and reserves from improved completion techniques in the Bluebell field, Uinta Basin, Utah: Annual Report for the Period September 30, 1993 to September 30, 1994*, DOE/BC/14953-10 (DE95000171), 123 p.
- Allison, M.L., and Morgan, C.D., 1996, *Increased oil production and reserves from improved completion techniques in the Bluebell field, Uinta Basin, Utah: Annual Report for the Period September 30, 1994 to September 30, 1995*, DOE/BC/14953-14 (DE96001227), 118 p.
- Deo, M.D., and Morgan, C.D., 1998, *Increased oil production and reserves from improved completion techniques in the Bluebell field, Uinta Basin, Utah: Annual Report for the Period October 1, 1996 to September 30, 1997*, DOE/BC/14953-20 (DE98000481), 62 p.
- Garner, Ann, 1996, *Outcrop study of the lower Green River Formation for the purpose of reservoir characterization and hydrocarbon enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: Provo, Brigham Young University, M.S. thesis*, 192 p.
- Garner, Ann, 1995, *Reservoir characterization through facies analysis of the lower Green River Formation for hydrocarbon production enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: American Association of Petroleum Geologists Bulletin v. 79, no. 2, p. 313.*
- Garner, Ann, 1995, *Reservoir characterization through facies analysis of the lower Green River Formation for hydrocarbon production enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: Physical and Mathematical Sciences and the Central Utah Section of the American Chemical Society Ninth Annual Spring Research Conference Program with Abstracts.*
- Garner, Ann, and Morris, T.H., 1996, *Outcrop study of the lower Green River Formation for reservoir characterization and hydrocarbon enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: Utah Geological Survey Miscellaneous Publication 96-2, 61 p.*
- Garner, Ann, and Morris, T.H., 1994, *Reservoir characterization through facies analysis of the lower Green River Formation for hydrocarbon production enhancement in the Altamont-Bluebell field, Uinta Basin, Utah: Geological Society of America Abstracts with Programs, v. 26, no. 7.*
- Montgomery, S.L., and Morgan, C.D., 1998, *Bluebell field, Uinta Basin-reservoir*

- characterization for improved well completion and oil recovery*. American Association of Petroleum Geologists Bulletin E & P Notes v. 82, no. 6, p. 1,113-1,132.
- Morgan, C.D., 1994, *Oil and gas production maps of the Bluebell field, Duchesne and Uintah Counties, Utah*: Utah Geological Survey Oil and Gas Field Study 15, 4 p., 7 plates, scale 1 inch = 0.8 miles.
- Morgan, C.D., 1995, *A multi-disciplinary team approach to reservoir characterization of the Bluebell field, Uintah Basin, Utah*: American Association of Petroleum Geologists Bulletin, v. 79, no. 6, p. 923.
- Morgan, C.D., compiler, 1995, *Increased oil production and reserves from improved completion techniques in the Bluebell field, Uinta Basin, Utah-second annual report*: Utah Geology Survey Open-File Report 330, 115 p.
- Morgan, C.D., 1997, *Improving primary oil recovery from a (DOE Class I) fluvial-dominated deltaic lacustrine reservoir Uinta Basin, Utah*: American Association of Petroleum Geologists Annual Convention Program with Abstracts p. A85.
- Morgan, C.D., 1998, *Second field demonstration of completion techniques in a (DOE Class I) fluvial-dominated deltaic lacustrine reservoir, Uinta Basin, Utah*: American Association of Petroleum Geologists Annual Convention Abstracts CD ROM.
- Morgan, C.D., Sprinkel, D.S., and Waite, K.A., 1995, *Bluebell field drill-hole database, Duchesne and Uintah Counties, Utah*: Utah Geological Survey Circular 90 DF, 23 p. 1 diskette.
- Morgan, C.D., and Tripp, B.T., 1996, *Bluebell project to test well-completion techniques*: Utah Geological Survey Survey Notes v. 28, no. 1, p. 12-13.
- Tripp, C.N., 1995, *Reservoir characterization of potential targets for horizontal drilling in the Tertiary Green River and Wasatch Formations, Bluebell field, Uintah County, Utah*: American Association of Petroleum Geologists Bulletin, v. 79, no. 6, p. 925-926.
- Utah Geological Survey, 1996, *Bluebell project ready for field demonstration*: Petroleum News, May, p. 12-14.
- Utah Geological Survey, 1997, *Oil recovery demonstration program begins with acid treatment in the Bluebell field*: Survey Notes v. 29, no. 3, p. 10.
- Wegner, MaryBeth, 1996, *Core analysis and description as an aid to hydrocarbon production enhancement - lower Green River and Wasatch Formations, Bluebell*

field, Uinta Basin, Utah: Provo, Brigham Young University, M.S. thesis, 233 p.

Wegner, MaryBeth, 1995, *Facies analysis of well cores from the lower Green River Formation, Bluebell field, Uinta Basin, Utah: implications for identifying highly productive zones*: Physical and Mathematical Sciences and the Central Utah Section of the American Chemical Society Ninth Annual Spring Research Conference Program with Abstracts.

Wegner, MaryBeth, Garner, Ann, and Morris, T.H., 1995, *Reservoir characterization through facies analysis of core and outcrop of the lower Green River Formation: hydrocarbon production enhancement in the Altamont-Bluebell field, Uinta Basin, Utah*: American Association of Petroleum Geologists Bulletin, v. 79, no. 6, p. 926-927.
