Geologic Unit Ages and Descriptions

- **Qs**: Quaternary (salt flats)
- **Q**: Quaternary (alluvial, lake, dune, glacial, landslide)
- **QTb**: Quaternary-Tertiary (basalt)
- **TL**: Late Tertiary (valley fill)
- **TV**: Middle Tertiary (volcanic rocks)
- **Te**: Early Tertiary (river, lake, basin fill)
- **K**: Cretaceous (marine, coastal plain, coal)
- **J**: Jurassic (sand dune, river, marine, evaporite)
- **R**: Triassic (marine, tidal flat, river, lake)
- **P**: Permian (marine, river, sand dune)
- **PIP**: Pennsylvanian (marine, evaporite)
- **M**: Mississippian (marine)
- **DSO**: Devonian-Silurian-Ordovician (marine)
- **C**: Cambrian (marine, coastal)
- **pCs**: Precambrian (sedimentary—marine, coastal, glacial)
- **pCl**: Precambrian (metamorphic, igneous)
- **I**: Intrusive rocks, including dikes
